

Wishing you a very Merry Christmas and a very happy and prosperous New Year

Also expressing our thanks for your business in the past year*

* Unless you haven't purchased from us this past year, in which case we'd like some sort of explanation

December 2009

Feeling PRESSURE? JUMO DELOS & MIDAS S05

JUMO have tuned their pressure range with the introduction of the DELOS SI and MIDAS S05. Developed over a considerable period of time, the MIDAS S05 will replace the highly successful MIDAS S1 pressure transmitter to offer improved characteristics with the same reliable performance.

Alongside the MIDAS S05, JUMO have added the DELOS SI electronic pressure switch. No ordinary pressure switch, JUMO have developed an absolute jackpot device in the DELOS SI.

Key features

- No seals / O-rings
- Stainless steel wetted part
- Resistant to coolants
- Extremely overload-resistant
- **2x PNP & 1x 4-20mA Output***
- 200°C Medium temperature
- **Dual colour display & alarm**
- Local or software set up

Time Magazine gives it's 'Man of the Year' award to the first non human - The Computer.

Tank Level Control - NIVELCO Vibrating Forks

Multiple Uses: NIVELCO Nivoswitch

- Simple 'no maintenance' device.
- ECTFE (HALAR®) coated versions for aggressive or sticky media & 'application dependent' forks (above)
- 2-wire AC, 2-wire DC and 3-wire versions.
- Hygienic versions with various process connections.
- Operation independent of media pressure or temp.

Being Christmas — Everyone likes bright lights & Intech display units

There are some excellent display / control products out there. Admittedly some products are not Intech units in which case they're probably produced by Shimaden. We thought we'd show you some clever stuff from both stables:-

IN-P4 - Process Indicator / Controller

Inputs:-

- Up to 8 4~20mA
- Up to 4 Thermocouple
- Up to 4 Pt100

Outputs:-

- Up to 6 relays
- 4~20 mA
- Excitation (Load cell)
- Modbus RTU & TCP
- Retransmission

Features:-

- Multi-Stage Controller
- Flow Controller
- Maths Functions

Cheers!

IN-R4 - Tachometer with relay outputs

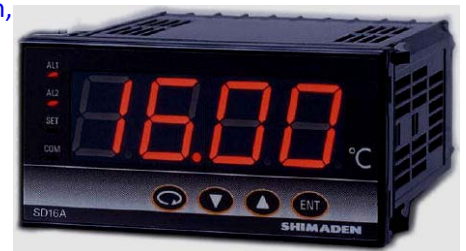

- Large 4 Digit Microprocessor Based Display.
- 4 Set Points with delay.
- 4 LED's for Alarm indication.
- Analogue Output Retransmission option.
- Simple setup and calibration.
- On Screen Step by Step Instructions.
- 5 Buttons for easy Operator Interface.
- Power Supply options from 10V to 265V.
- Inputs: 0~30V, magnetic, NPN, PNP, TTL, Namur.

Shimaden SD16A - Look No Further

The premier indicator / display unit, the SD16A is a proven, Reliable and dependable performer....

- ± 0.3% High Accuracy Indication
- Large 20 mm bright display
- Multi-inputs (TC, RTD, V, mV) & multi-ranges
- Selectable latching / non latching alarms
- IP66 Front Panel
- RS-232C or RS-485: MODBUS / Shimaden Comms
- Sensor power supply 24V DC available

Shimaden SD16A - Unbeatable

Enjoy the break!
