## JUNE 2011

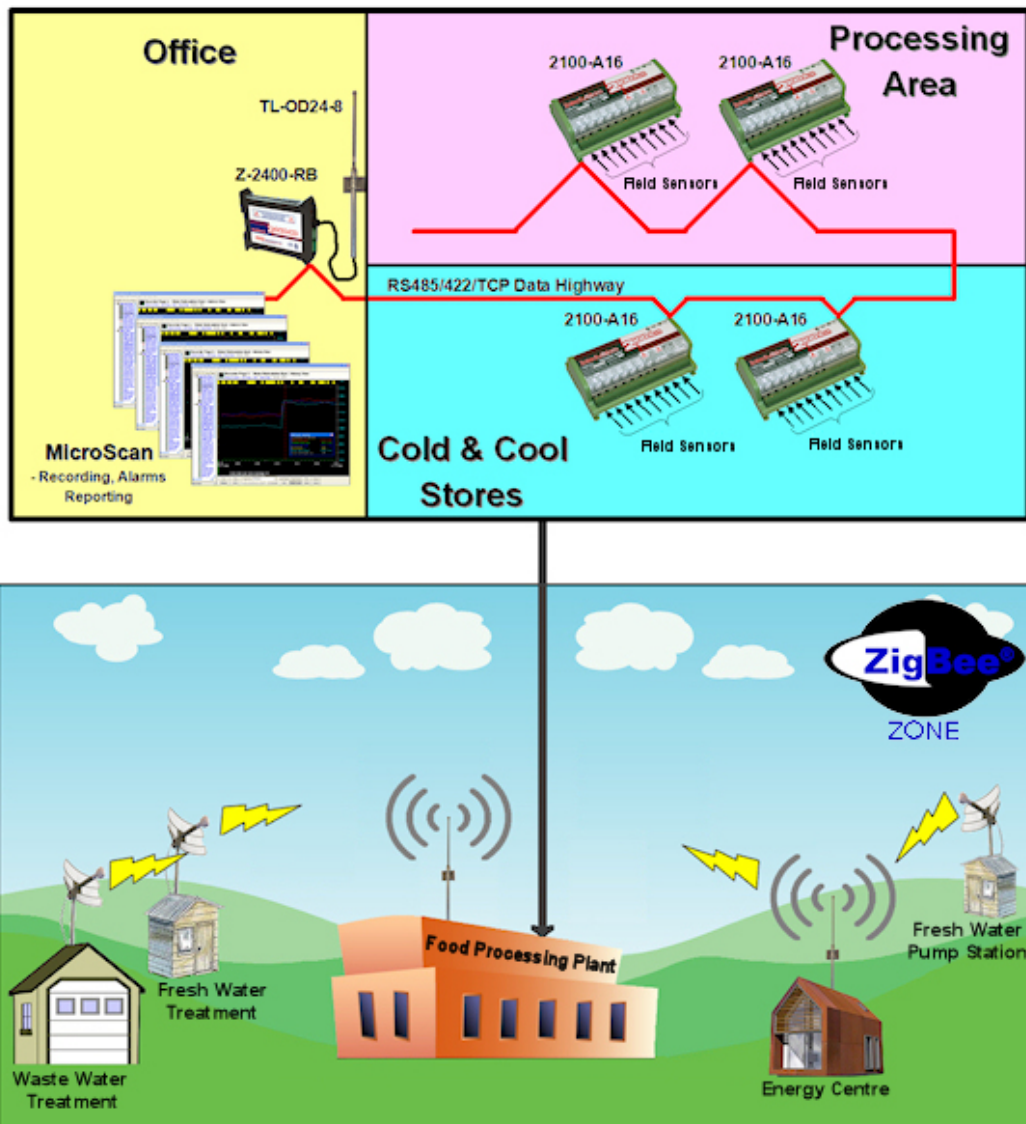

### Intech Application Files: **Plant wide monitoring by MicroScan**

**MicroScan** is known to be the best feature packed recorder for gathering valuable data. Continuous development places MicroScan in the leading position as a benchmark against which other packages are measured.

MicroScan communicates on different data links simultaneously including [data hi-ways](#), [TCP networks](#) both [LAN](#) and [WAN](#), plus [wireless](#). MicroScan allows easy sharing of data to production managers, QA, and accounting etc. Powerful alarm handling both on and off site including text messages to mobile phones. Also easy remote access is widely used from both external PC's and mobile phones.

Now partnering MicroScan with [ZigBee wireless](#); pushes the boundaries beyond the limitations adherent to wires and provides solutions for mobile applications.

### Food Processing Plant

## Key Benefits

- High performance Windows application.
- Feature packed recorder:
  - ⇒ Real time trending and data screens.
  - ⇒ Alarm and event handling.
  - ⇒ Historical retrieval and analysis.
  - ⇒ Mathematical blocks.
  - ⇒ Batch Processing support.
- Help screens.
- ISO 9000 support.
- Live mimic screens for operator Interfaces.
- Intech remote stations and PLC support.
- Networking made easy.
- DDE support.

## Applications:

- Factory wide monitoring.
- Cold Stores.
- Refrigeration.
- Energy Management.
- Fermentation.
- Research.
- Shipping.
- Heat Treatment.
- Mining.
- Laboratories.
- Timber Processing.
- Water / Waste Water.
- Meat Industry.
- Food Processing.
- Energy Management.
- Plastic / Rubber.
- Textile.
- Security.
- Radio Communications.
- & many others!

**Z-2400-RB** Base/Remote module - RS485/RS422 input

**Z-2400-SLEEPER** battery powered module - Universal inputs

**Z-2400-TCP** Base module - TCP input
