

October 2009

One Size Fits All

Arguably the greatest breakthrough in 'Transmitters' since Marconi send radio across the Atlantic, Intech's new 'XU series' devices are something else. They'll handle all sorts of input (mA, mV, V, RTD, Thermocouple, Potentiometer) and are easier to program than a microwave oven.

Careful not to overdo the superlatives, there is no other unit quite like the XU-2 in the Galaxy.

4th October, 1957

The Soviet Union launch Sputnik 1, the first man made object ever to leave the Earth's atmosphere.

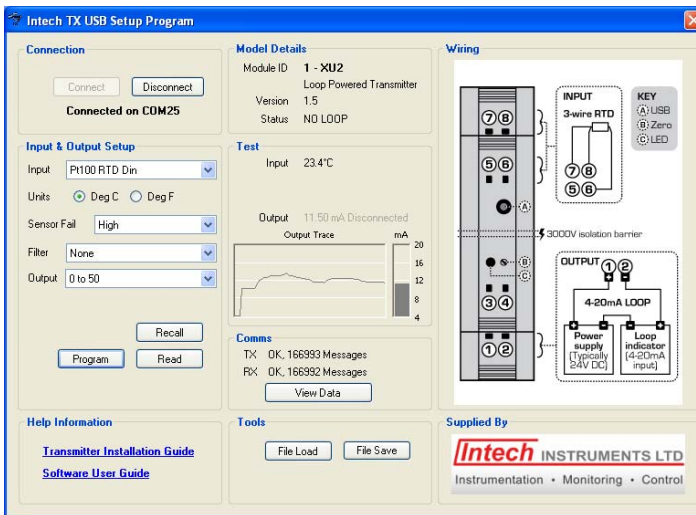

19th October, 1931

Renowned spy writer & former MI5 & MI6 employee John Le Carré (pseudonym of David John Moore Cornwell) is born in Poole, Dorset, England.

29th October, 2007

Argentina elects its first ever female President Cristina Fernandez de Kirchner.

Easy XU2: Programmable with simple software via USB connection.

Need Uncomplicated Control?

Some folk always seek a sledge hammer to crack a peanut. Others simply need a device to do a job. Shimaden can help in both instances.

Almost identical to the 'Trojan' SR90 series, the Shimaden SR1 series units are far less complex.

- Multi-Input, Multi-Range Performance.
- IP66 Front Panel Protection
- On/Off Control with Hysteresis
- Dual Display (Process Value & Set Point)

The same but different:-

Shimaden SR1 Series (above) & Shimaden SR90 Series (left)
